DELIVERY OF LOTS

Coins bought by room bidders may be picked up on the days following their purchase, or the combined purchases may be picked up on Monday, May 12th.

Mail bidders' purchases will be processed as soon as possible. All parcels of mail bidders, domestic and foreign, and room bidders who want their parcels mailed, will be shipped out about Friday, May 16th. Mail bidders should expect their coins within several weeks following the sale. Parcels are sent registered mail, air freight, and air express; heavy parcels via parcel post and railway express, unless requested otherwise.

BIDDING

Mail bids by air early as mail is slow. From Europe to New York it takes 4–5 days. From California to New York 2–3 days. You can telephone bids during the sale. In addition, we now have a Telex #62498 Western Union and can receive cables and telegrams directly on to our machine.

FOREWORD

The children of Federico Diaz Lascano in Cordoba, Argentina, spent many days wondering how to keep a permanent record of their father's Collection for posterity. After much deliberation, it was decided that a Public Auction at the Waldorf Astorial would be an appropriate commemoration. It is a great honor for us to be instructed to sell this Collection which we have, more or less, formed with him. Most of the coins originated in our sales.

Mr. Diaz made one visit to the United States a few years before his untimely death, and we will always remember him looking exactly like the photo herewith reproduced.

This Sale is not terminating the Spring auction season. In a few weeks we will be having the Prof. T. O. Mabbott Sale of 5100 lots of gold, silver and copper Ancients.

ANCIENT GOLD ANTIQUITIES

COLLECTION OF EARLY PERSIAN ART

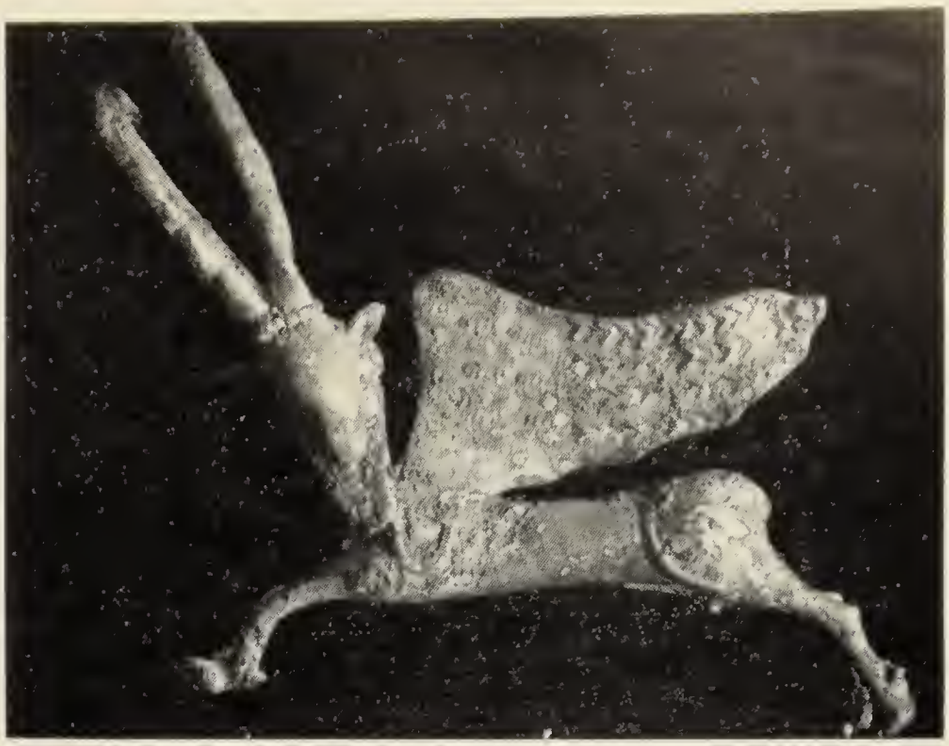
Gold objects dug up in Northern Iran as guaranteed by the director of World Antiquities and proprietor of large territories in Northern Iran where excavations were made on his terrain (with his cerficates with his guaranty).

---

1 **Gold Cow.** Pre–Achaemenid Persia. 2000–1000 B.C. Hollow gold figure of a cow, cast with thick walls and ciselé. Details are added as follows: applique collar made of goldstrip hammered or molded with tiny bosses–about 30 to the inch; many body openings are surrounded by rings of wire and semi–precious stones. Detailed engravings on horns. Length 1¾", height 1½", weight 19 grams. Cast mark and joints are well concealed; a few casting faults are visible. For this work of great charm and remarkably realistic detail no precise parallel can be found. However, the type seems to be Iranian. The bull protoma is found in Pre–Achaemenid art in Persia; some of it is typically Luristan where animals were common. Although some say this is late Sassanian or early Islamic, I believe in the Oberlin catalogues description. **PHOTO** ($1400.–1800.)

2 Another very large cow. A magnificent piece 2½x2 inches. Weight 26½ grams. **PHOTO** ($1600.–2000.)

3 **Manheaded dragon** with animal in its mouth – a bird on top of his neck. Magnificent frightening piece of early gold ciselé work typical of the period. 2¼x1¼ inch. Weight 22.9 grams. **PHOTO** ($2500.–3500.)



4 **Winged gold ibex.** 5th–1st Century. figure of a male ibex in a leaping position, front legs stretched with pair of wings on shoulders. The body and legs appear cast or molded in 2 halves soldered together and chased with engraved lines simulating the pelt. Feathers on wings are engraved, so are the horns which are soldered on like the ears and wings. Height is near 3″ and from front to hind legs 3″. The weight is 47.9 gr. Oxide from burying all over the subject, and traces of eluminating same. It is said by the director of World Ant. to be excavated in Northern Persia. Doubt has been cast, but there is no evidence that it is not ancient. See Oberlin catal. p. 281 by Parkhurst 1961. Allen Memorial Art Museum, Oberlin, Ohio. **PHOTO** ($2000.–3000.)

All the above notes have been taken from Oberlin art reference.

5 Black Sea Region. 300 B.C. So–called **"funerary aurei".** Head of Goddess of Death. Rev: blank. Bracteate type of coin with blue stone on each; one of which chipped. This gold was put in the grave to assure the dead a safe passage over the River Styx, a sort of payment to Charon, and therefore called Charon's Obol. Real aurei would have been too valuable! Matching pair which could make nice pair of earrings although ring on one is missing. From the Arlow Coll., Part II, Lot 6, Nov. 1966 $350. Superb! **PHOTO** ($700.–1000.)

ANCIENT GOLD COINS

ROME

6 **Gratianus.** 367–383. Solidus. Milan mint. Diademed and draped bust. Rev: Gratianus and Valentinian seated facing on throne, holding between them globe. Emperors are haloed(nimbate). Behind them Victory. VICTORIA AVGG. In exergue: COM for Milan. Coh. 38; Ric. 5(d). E. F., but edge dent at NVS of Gratianus. **PHOTO** ($180.–200.)

INDO-GREEK

Consignment of Kushan Gold Coins

(With Consignor's Own Research)

The following attributions are offered, based on his own researches and those of the previous owner, but some changes may be suggested on these now rather controversial series. The chronology of the Kushan series has not yet been established to the satisfaction of any majority of scholars. An international conference in London in 1960 on the subject ended in disagreement, and the conference report has not yet even been published! The relative time span of the dynasty has been worked out roughly, chiefly from inscriptional evidence, but the exact starting date is still in doubt. The latter varies from 78 A.D. to 144 A.D. according to various schools of historical thought. I have arbitrarily chosen in this list to use the reckoning proposed by Percy Gardner in the BMC (1886), **Coins of the Greek and Scythic Kings of Bactria and India,** which most collectors and dealers seem to continue to use. Under this system, however, Kanishka's reign should begin in 78 not 87 A.D. Regarding spelling, the more modern and correct forms "Kanishka" and "Huvishka" should be used instead of the archaic and erroneous "Kanerkes" and "Hooerkes" originally used in the BMC and often still employed.

As for sources, I have cited the BMC wherever possible, changing only the spelling of names where necessary. I have a number of **de Morgan** references (Jacques de Morgan, **Manuel de Numismatique Orientale de l'Antiquité et du Moyen Age,** Vol. I) which I have checked out; they are not as accurate as BMC or other references as this work is not so detailed on the Kushan or any other single series. I have also cited in some cases **Rosenfield** (John M. Rosenfield, **The Dynastic Arts of the Kushans,** U. of Calif. Press, 1967), a magnificent recent book ($25) on the subject including many plates of coins and much description. Also cited are **Chattophadhay** (Bhaskar Chattopadhay, **The Age of the Kushanas – A Numismatic Study,** Calcutta, 1967 and **Cunningham** (Sir Alex. Cunningham, articles in **Numismatic Chronicle,** 1893–94, available in reprint from India), where necessary to identify coins of the later sub-series.

As for valuation, both the consignor and I worked hard on these. We have suggested approximate real values for your guidance. The 11 Kushan and 1 Gupta Gold Coins are from a private collection acquired in Afghanistan and are listed in approximate chronological order:

7 Great Kushans. **King Kanishka,** 78–106 A.D., stater. Standing figure of king l. standing female deity (Ardoksho) r. holding cornucopiae. BMC 12; Rosenf. 36. Very rare type. V. F./E. F. **PHOTO** ($250.–350.)

8 Great Kushans. **King Huvishka,** 111–129 A.D., stater. Upper part of king l. emerging from clouds/Moon-god (Mao) standing l. BMC 34-38; Rosenf. 52. Superb and rare. **PHOTO** ($350.–450.)

9 Great Kushans. **King Huvishka,** 111–129 A.D., stater. Upper part of king l. emerging from clouds/Moon-god (spelled Maoo) standing l. BMC 38,40; Rosenf. 55 (Ob.), 105 (Rev); de Morgan p. 472. Similar to Lot 8 above, but different portrait of king. Interesting, rare. V. F./E. F. **PHOTO** ($300.–400.)

10 Great Kushans. **King Huvishka,** 111–129 A.D. stater. Upper part of king l. emerging from clouds, conical helmet/Ares (Shaoreoro) standing r. in Greek helmet and armor. BMC 102,108; Rosenf. 188. Most attractive and rare type. E. F. **PHOTO** ($350.–450.)

(**Note:** The conical helmet Ob. type is much rarer and more desirable than the rounded helmet Ob. type, like Lots 8 and 9.)

11 Great Kushans. **King Vasu Deva (Bazodeo),** 122–176 A.D. Stater. Standing figure of king l. standing Siva and bull l. (inscription: Oksho). BMC 5–13; Rosenf. 215–16. Nice E. F. and rare. **PHOTO** ($250.–350.)

12 Great Kushans. **King Vasu Deva (Bazodeo),** 122–176 A.D. Stater. Standing Siva (Oksho) and bull l. Barbarous contemporary strike. BMC 24; Rosenf. 229–30. Unusual and interesting. Very rare. AU. **PHOTO** ($200.–300.)

13 Later Kushans. **Shaka (?),** 200–300. Stater. King standing l. goddess (Ardoksho) seated facing. Cunningham, Pl. IX–4; Chattop. Pl. IV–4,6. Stylized, very sharp. (Previously attributed as Whitehead 236; de Morgan p. 473. Possibly worth verifying and using as identification.) Crude V. F. **PHOTO** ($200.–250.)

14 **Shaka (?).** Similar to above. Some slight differences in inscription and detached letters. Same references. Strong V. F. **PHOTO** ($150.–200.)

15 **Kushano–Sassanian. Varahran,** ca. 400 A.D. Scyphate stater. Apparently AU on AE (plated or fourré?). King standing l. in Sassanian dress/Siva and bull (obscure). Crude V. F./E. F. as usual, extremely rare type. Much rarer than the pure gold. AU on AE apparently unpublished. See Rosenf. 261; Whitehead 241; Parke–Bernet Sale (Newell) 10/68. **PHOTO** ($250.–350.)

16 Kushano–Sassanian. **Vahahran,** ca. 400 A.D. Scyphate stater, electrum and gold. King standing l. Siva and bull (lightly struck, unclear). Obv. unusually sharp for the series. Scyphate edge apparently clipped and polished, otherwise V. F.+. Similar to lot 15, but sharper. Same references. Note: Rosenf. names this ruler Vaharam. **PHOTO** ($75.–150.00)

17 **Varahran v Bahramgar,** 420–444 A.D. Pure electrum stater, scyphate. King standing/Siva and bull. Morgan p. 464. E. F. **PHOTO** ($500.–750.)

18 Gupta Rule. **Kumaragupta I,** 413–455. Stater. King on horseback r. Goddess seated offering fruit to proud peacock. Rare. V. F., with light striking cracks. **PHOTO** (250.–350)

THE AMERICAS

NORTH AMERICA

19 **United States.** 20 dollar gold. 1922S. Bag-marked. AU. Not too sharply struck. ($190.–225.)

MEXICO

READ CAREFULLY

TERMS OF SALE

1. Auction sales ARE NOT approval sales. Read these terms carefully. By submitting bids you agree to the terms set forth below. All coins have been classified by experts and while errors will be gladly corrected NO LOT MAY BE RETURNED WITHOUT WRITTEN PERMISSION. Request to return coins MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS. Gold coins cannot be returned from abroad until an import license is obtained. Returned American merchandise also needs import licenses.

2. All bids are to be by LOT as numbered in the catalogue. When identical bids are received, preference is given to earliest bidder.

3. This is a UNRESTRICTED PUBLIC AUCTION. All bids are entered as received and highest bidder will be the buyer. Mail midders may feel free to submit any bid they wish and each lot will be purchased for such bidders at the next highest bid over room bidders.

4. Bidders must establish credit or have on deposit 25% of TOTAL bids.

5. Mail bidders will receive their lots promptly after the end of the sale. All ACCOUNTS MUST BE SETTLED PROMPTLY IN U.S. FUNDS, or in other currencies if special arrangements have been made. We reserve the right to charge interest on overdue accounts.

6. Lots delivered in New York City are subject to 5% Sales Tax. Mail buyers in New York State pay 2% Sales Tax.

7. There will be no charge for executing bids but postage and insurance will be added, and a handling charge for heavy lots.

8. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER. We recommend however, if you want the lot, bid close to or over estimate.

9. All coins are genuine and as described. All descriptions have been written by Hans M. F. Schulman and Herman Steinberg. Photos are of actual items sold.

10. The buyer who acts as agent for third parties is the only person responsible for his purhases towards the auction house. Third parties refusing to accept coins from the agent are entirely the responsibility of the agent. The auctioneers cannot accept returns from agents because of third parties for any reason whatsoever unless coins were bought with specific special arrangements between the agent and the auctioneers.

11. Lots purchased by floor buyers cannot be returned.

12. Minor's bids are not accepted.

13. In case of dispute the decision of the auctioneer is at all times final.

14. The majority of the lots in this auction are being sold by order of a trustee. Who has imposed on us the condition that coins are delivered to our esteemed customers against signed receipts which are payable within thirty days of receipt of merchandise.

WE SELL 150 LOTS OR LESS PER HOUR IN THIS SALE.

The THOMAS OLLIVE MABBOTT Numismatic Collection

A part of the magnificent collection of ancient Greek, Roman, Byzantine and other ancient coins formed during a lifetime of numismatic research by the late Professor Thomas Ollive Mabbott is to be sold at public auction at the Schulman Gallery in New York City in a six-day sale lasting from June 6 to June 11, 1969. The sale includes a total of nine sessions.

Dr. Mabbott, who was Professor of English at New York City's Hunter College, and after he retired, at St. John's University, was a leading American authority on ancient, medieval and foreign numismatics. The coins of the Romans will be sold at a second sale in the fall of 1969.

A total of over 20,000 coins are contained in the wide-ranging Mabbott collection. Dr. Mabbott, who assembled these coins over a period of fifty years, painstakingly researched most of these choice specimens. Included in the collection are many unique coins which are not to be found even in the world's leading museums. Many of the ancient coins have not been listed in the British Museum Catalogues and other standard reference works. Dr. Mabbott made it his goal to bring together as many unpublished and otherwise remarkable coins as possible.

These include the famed "Ides of March" coin of Brutus, rare Roman medallions (including a large gold medallion of the fourth century A.D.), coins of the Greek City States (some of which are known through their coinages only . . . hundreds of Greek City States are represented in the Mabbott collection), and rare and unusual portrait pieces of Cleopatra, Julius Caesar, Mark Antony, and many other outstanding historical figures.

The collection is beng sold under the supervision of the internationally known numismatist Hans M. F. Schulman of New York City. The catalogue is being prepared by Hans Holzer, a lifelong friend and associate of Professor Mabbott. Hans Holzer is himself a widely known numismatist, historian and author.

Dr. Mabbott, in addition to his reputation in the field of numismatics, is also noted for his research into the life and literary works of Edgar Allan Poe. The first volume of the definitive Mabbott edition of Edgar Allan Poe's **Collected Works** will be published by the Harvard University Press in June 1969.

Thomas Mabbott has contributed a large number of articles to various encyclopedias, including the the articles on "Edgar Allan Poe," and "Numismatics" to the current edition of **Collier's Encyclopedia.** Copies of the Mabbott sale catalogue may be reserved by writing to the Hans M. F. Schulman Gallery, Inc., 25 West 45th Street, New York, N. Y. 10036. Subscriptions to all Schulman publications are available at $5.00 annually.
